landscape, the kiln complex and the archive of the former quarry company.

At the end of 2025 the trust had 2,300 members. Its mission combines conservation of the quarry

The site closed as a working quarry in 1962 and has been open to visitors since 1991.

The trust was founded in 1987 to preserve the Caldstone limestone quarry and its industrial heritage.

Trust and Mission

The course ran over nine weekends, and 61 volunteers qualified as site guides for the 2026 season. In 2025, 84 volunteers completed the accredited course in archive handling and guided tour practice.

the designated training reserve rather than the general budget.

Under this heading the trust reports on its volunteer training programme, which in 2025 was funded from

Financial Outlook

with twelve seats opened in the old weighbridge office.

In 2025 the digitisation team scanned 2,150 negatives and transcribed 66 oral histories. A reading room

oral history recordings of former quarry workers and their families.

The archive holds 12,400 photographic negatives of quarry operations between 1904 and 1961 and 480

Archive and Collections

during the works.

130,000 GBP came from an industrial heritage grant. Scaffolding protected the original brick linings. Restoration of the three draw kilns was completed in June 2025 at a cost of 214,000 GBP, of which

funds and external grants rather than by membership fees alone.

This section describes the restoration of the kiln complex, which was financed largely by membership

Membership Benefits

48 to 71 minutes after the trail was extended to the upper bench.

A new audio guide in three languages was launched in May 2025. Average visitor dwell time rose from interpretation panels describing the stone extraction process.

The visitor trail around the quarry floor and kiln bank is 2.6 kilometres long and marked with 18
