office, dockyard and pontoon crews. Winter lay-up ashore is supervised by the dockyard team. The trust manages 385 berths for vessels up to 22 metres and employs 26 staff across the harbour self-funded public trust. It is the only trust-run marina on this stretch of the south-west coast. The Brightwater Marina Trust has managed the harbour since 1987 and operates the marina as a

Overview

- Pump-out station: installed 2021
- Winter hard standing: 130 boats
- Travel hoist: 50 tonnes

north pontoon. The chandlery leases units to two local traders.

Hard standing takes 130 boats over the winter, and the pump-out station installed in 2021 serves the vessels up to 16 metres for scrubbing and survey work.

The fuel dock serves petrol and diesel between 07:00 and 19:00, and the 50-tonne travel hoist handles

Facilities

- Berth occupancy: 87 percent
- Dredging 2024: 11,200 cubic metres of silt
- Revenue 2025: 2.9 million pounds

pounds, financed from the reserve fund.

The 2024 dredging campaign removed 11,200 cubic metres of silt from the fairway at a cost of 410,000

87 percent across the season.

Revenue for 2025 was 2.9 million pounds, up six percent on the previous year, with berth occupancy at
