

Kearsley Brewery

Trade Report 2025

Kearsley Brewery - Manchester, United Kingdom

P3 synthetic corpus - fusion-proto-v1

The brewery employs 44 staff between the brewhouse, cellars, drays and the office by the canal basin.
Kearsley Brewery was founded in 1876 and brews cask ale for 68 tied pubs across the northwest.

Overview

- Fermentation vessels: twelve
- Steam engine: 1898, working order
- Brewhouse rebuild 2011: 2.3 million pounds

fermentation vessels.

The steam engine of 1898 still drives the hoist on heritage open days, and the cellar block holds twelve copper.

The brewhouse was rebuilt in 2011 for 2.3 million pounds and doubled the mash capacity of the old

Facilities

Pub throughput grew in 51 of the 68 houses, and the dray fleet logged 96,000 delivery miles.

Output for 2025 was 38,000 hectolitres of cask and bottled ale, a five percent rise on the previous year.

Figures

The brewery will relaunch the 1876 recipe series with heritage barley from a single farm contract.

bitters.

A canning line arrives in 2026 in the former stable block, adding canned versions of the two best-selling
